

Covid-19 Policy

The First Universalist Church COVID policy is based upon the most up-to-date data available to us, and is guided by our values of inclusion, justice, and equity for those most at risk.

- If local wastewater levels, based on the most recent Maine CDC data for Androscoggin County, reach the level “Very High,” the use of masks indoors for all church activities will be mandatory.
- Masking is encouraged, but not required, when wastewater levels are high, moderate, low, or minimal.
- If Androscoggin County data are unavailable, Maine CDC state data will be used.
- The CDC data will be reviewed regularly by a designated Board member.

Adopted: February 7, 2024
